ACT PROJECT

Active Citizens Together

To encourage the participation of mobile EU citizens in the East of England in civic and political life

The East of England Local Government Association's Strategic Migration Partnership (SMP) has attracted European Commission (EC) funding for two years following a successful application to the EC's 'Rights, Equality and Citizenship' Programme.

The fundamental principles of this Programme are that all of us in Europe need to feel at ease when we live or travel in a Member State other than our own, and that we should be able to rely on access to justice throughout the EU.

The project will maximise its resources by focusing on those selected parts of the East of England with larger or more concentrated groups of EU migrants – Bedford; Cambridge; Fenland, Great Yarmouth; Hertfordshire; Ipswich; Kings Lynn; Peterborough; Thetford, for example.

As part of this programme, the regional SMP will work in partnership with local agencies and organisations which support migrants, and others to run a new project called 'ACT' – 'Active Citizens Together' (ACT). Beginning on 1st October 2015 for two years, the ACT Project will include the development of an [entry level 2- 3 module](#) for 'English for Speakers of other Languages' (ESOL) courses on the rights of mobile and naturalised EU migrants.

There will also be regular [two-hour interactive workshops for EU migrants](#) on opportunities to become active in civic and community life. Examples might include becoming a school governor or working with a voluntary organisation; joining an advice and guidance service; fundraising; becoming a magistrate; organising cultural and/or sporting events; helping with conservation projects.

There are local councillors across the East of England with roots in other EU member states, reflecting the ethnic diversity of the region, so the 'ACT' project will also set up a [mentoring programme](#) through which those councillors wishing to support migrants in standing for public office, and/or undertaking other forms of active citizenship, will be able to do so.

A new '[Active Citizens Together](#)' network will be set up in the region as part of the project, so as to help maintain this kind of targeted civic and political engagement work beyond the project itself.
